

Date: 11 & 12 October 2012  
 Event: Annual Pathology Seminar 2012  
 Title: Pulmonary Pathology Decoded!  
 Venue: Theatre – Level 1, Tan Tock Seng Hospital

This course highlights recent advances in pulmonary pathology, and touches on common diagnostic problems through a series of didactic lectures and lively slide discussions, be it classifying interstitial pneumonia; understanding lymphoid, vasculitic and granulomatous lesions of the lung; subtyping lung adenocarcinomas; or tackling problematic areas in the diagnosis of pleural or pulmonary neoplasms.

We are privileged to have as our keynote and main speaker, a leading authority on pulmonary pathology, Dr Thomas V Colby, Professor of Pathology at the Mayo Clinic College of Medicine and Chair, Department of Laboratory Medicine and Pathology, Mayo Clinic, Scottsdale, Arizona, USA.

Invited Speaker  
 Dr Thomas V Colby  
 Professor, Mayo Clinic College of Medicine  
 Chair and Consultant  
 Department of Laboratory Medicine and Pathology  
 Mayo Clinic, Scottsdale  
 Arizona

### **Programme for Annual Pathology Seminar**

October 11, 2012 (Thursday)

<u>Time</u>		<u>Speaker</u>
0815	Registration	
0845	Welcoming & Opening Address	
0900	Diagnosis and Classification of Interstitial Lung Disease Part I	Professor Thomas Colby
1000	Question and Answer	
1015	Tea Break	
1045	Diagnosis and Classification of Interstitial Lung Disease Part II	Professor Thomas Colby
1145	Break / Question and Answer	
1200	HRCT of the lung and the pathologist	Professor Thomas Colby

1300	Lunch	
1400	Granulomatous Diseases of the Lung / Pulmonary Vasculitis	Professor Thomas Colby
1500	Question and Answer	
1515	Tea Break	
1545	Slide Seminar	Faculty and Invited Speakers
1645	End of first day	

October 12, 2012 (Friday)

<u>Time</u>		<u>Speaker</u>
0900	Difficulties in the Diagnosis of Lung Cancer	Professor Thomas Colby
1000	Question and Answer	
1015	Tea Break	
1045	Lung adenocarcinoma : classification, staging and update on molecular markers	Professor Thomas Colby
1145	Break / Question and Answer	
1200	Mesothelioma : separation between benign and malignant processes and guidelines for a diagnosis of malignant mesothelioma	Professor Thomas Colby
1300	Lunch	
1400	Lymphoproliferative disorders of the lung, IgG4 related pulmonary diseases and unusual infections	Professor Thomas Colby
1500	Question and Answer	
1515	Tea Break	
1545	Slide Seminar	Professor Thomas Colby
1645	Concluding Remarks
