

2019 PPS Biennial Meeting Program

<p>Wednesday June 26</p> <p>Session 1 9:00-10:30 am Update on Lung Cancer Staging and diagnostic difficulties Chaired by Paul A. VanderLaan (USA); Kelly Butnor (USA); One Tentative</p> <ol style="list-style-type: none"> 1. Sanja Dacic (USA): Update on lung cancer staging 2. Prudence Russell (Australia): Histologic pattern classification in lung adenocarcinoma 3. Mari Mino-Kenudson (USA): Significance of spreading through airspaces in lung cancer 4. Hanaa Salem Bamefleh (KSA): Multiple lung nodules – implication for lung cancer staging <p>Break 10:30-11:00 am</p> <p>Session 2 11:00 am-12:00 Noon Update on Neuroendocrine carcinomas and Unusual Carcinomas Chaired by Lina Carvalho (Portugal); Jelena Stojšić (Serbia); Mauro Papotti (Italy)</p> <ol style="list-style-type: none"> 1. Giuseppe Pelosi (Italy): Grading of pulmonary neuroendocrine tumors 2. Natasha Rekhtman (USA): Multiple faces of LCNEC 3. Louise Burke (Ireland): Unusual carcinomas 	<p>Thursday June 27</p> <p>Session 5 9:00-10:30 am Molecular testing of lung cancer and molecular pathology of mesothelioma Chaired by Helmut Popper (Austria); Vera Capelozzi (Brazil); Kirtee Raparia (USA) Laura Tafe (USA)</p> <p>“Global Perspective on - New molecular testing guidelines.”</p> <p>Four 20 minute speakers</p> <ol style="list-style-type: none"> 1. Yasushi Yatabe (Japan): Update on CAP/IASLC/AMP molecular testing guidelines 2. Fouad Hassan Al Dayel (KSA): Lung Cancer Biomarker Testing: Perspective from the Near East 3. Erik Thunnissen (Netherlands): Lung Cancer Biomarker Testing: Perspective from Europe 4. Special Lecture 20 minutes: Marc Ladanyi Molecular Biology of Malignant Mesothelioma” <p>Break 10:30-11:00 am</p> <p>11:00 am-12:00 Noon</p> <p>Session 6 Global Perspective on Infections Chaired by Yasmeen Butt (USA); Soon-Hee Jung (Korea) Victor Roggli (USA)</p> <ol style="list-style-type: none"> 1. Deepali Jain (India): Global Infections: Asian perspective 2. Andre Moreira (USA): 	<p>Friday June 28</p> <p>Session 9 9:00-10:30 am Predictive biomarkers for immunotherapy in thorax Chaired by Ming Tsao (Canada); Sylvie Lantuejoul (France); Mitra Mehrad (USA)</p> <ol style="list-style-type: none"> 1. Keith Kerr (UK): Update on immunotherapy for Lung Cancer 2. Izidor Kern (Slovenia): “Pitfalls in IHC for predictive biomarkers in thoracic malignancy” 3. Wendy Cooper (Australia): IHC for PD-L1- harmonization comparing antibodies and platforms 4. Lynette Sholl (USA): NGS controversies: fusion and mutation burden <p>Break 10:30-11:00 am</p> <p>Session 10 11:00 am- 12:00 noon ABSTRACT ORAL PRESENTATIONS Organized by Mari and Andre</p> <p>Session 11 12:00 noon-1:00 pm MYSTERY CASES Organized by Mari and Andre</p>
------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

2019 PPS Biennial Meeting Program

	<p>Global infections: North and South American perspective</p> <p>3. Valeria Arrossi (USA): Pulmonary mycobacterial infection</p>	
<p>LUNCH: 12:00 Noon-1:10 pm Lunch speaker: Bill Travis, 15-20 minutes</p>	<p>LUNCH 12:00 Noon-1:30 pm</p>	
<p>Session 3 1:30 pm- 3:30 pm UIP/Non-UIP interstitial lung disease (ILD) Chaired by Lida Hariri (USA); Jun Fukuoka (Japan); Rosane Achcar (USA)</p> <ol style="list-style-type: none"> 1. Sanjay Mukhopadhyay (USA): "Update on the Interstitial Lung Disease Classification" 2. Brandon Larsen (USA): Diagnostic approach to advanced fibrotic interstitial lung disease emerging issues collagen vascular and IPAF 3. Andrew Churg (Canada): "Airway Centered Interstitial Fibrosis/Hypersensitivity Pneumonitis" 4. Ellen Caroline Toledo do Nascimento (Brazil): Cystic lesions of the lung including LAM 5. Anja Roden (USA): Histiocytic interstitial lung disease 6. Alberto Cavazza (Italy): "Cryobiopsy in the diagnosis of fibrotic interstitial lung diseases" 	<p>Session 7 1:30 pm- 3:30 pm Mesotheliomas and Pneumoconiosis Chaired by Luka Brcic (Austria); Allen Gibbs (UK); Gerhard Dekan (Austria)</p> <ol style="list-style-type: none"> 1. Handan Zeren (Turkey) Pleural neoplasms other than mesothelioma 2. Sven Seiwert (Croatia): Histologic subtyping of mesothelioma 3. Francoise Galateau-Salle (France): Pleural sarcomatoid mesothelioma vs. sarcomatoid carcinomas of the lung 4. Aliya Husain (USA): Guidelines for diagnosis of malignant mesothelioma 2017 update 5. Lucian Chirieac (USA): "Benign versus Malignant mesothelial proliferations" 6. Richard Attanoos (UK): Pneumoconiosis <p>Break 3:30 pm – 4:00 pm</p>	

2019 PPS Biennial Meeting Program

<p>Break 3:30 pm – 4:00 pm</p> <p>Session 4 4:00 pm-6:00 pm Drug reactions, Acute lung injury (including vasculitis), Lung transplant Chaired by Donald Guinee (USA); Osamu Matsubara (Japan); Andras Khor (USA)</p> <ol style="list-style-type: none"> 1. Maxwell Smith (USA): Pulmonary hemorrhage and vasculitis 2. Mary Beth Beasley (USA): Spectrum of acute lung injury 3. Doris Rassl (UK): "Organizing Pneumonia and Fibrosing Organizing Pneumonia" 4. Marina Ivanovich (USA): Update on airway rejection in lung transplants 5. Fiorella Calabrese (Italy): Antibody mediated rejection in lung transplants 6. Annabelle Mahar (Australia): Pulmonary drug reactions <p>KEYNOTE LECTURE: 6:00 to 6:30 pm Fred Hirsch</p> <p>Followed by 20-30 minute walk to: GET TOGETHER</p>	<p>Session 8 Small biopsies/cytology and Other topics/ benign, malignant/ infections others 4:00 pm-6:00 pm Chaired by Maureen Zakowski (USA); Marina Vivero (USA); Zivka Eri (Serbia)</p> <ol style="list-style-type: none"> 1. Alain Borczuk (USA) Diagnosis of benign/low grade malignancy in small biopsies 2. Lukas Bubendorf (Switzerland): Challenges in the cytopathologic diagnosis of lung cancer 3. Katalin Dobra (Sweden): Cytopathologic diagnosis of mesothelioma 4. Sinchita Roy-Chowdhuri (USA): Immunohistochemistry for diagnostic and predictive biomarkers on cytology specimens 5. Giancarlo Troncone (Italy): Molecular testing on cytology specimens 6. Paul Hofman (France): Liquid biopsy for management of lung cancer patients <p>KEYNOTE LECTURE: 6:00 to 6:30 pm Elisabeth Brambilla</p> <p>CONGRESS DINNER</p>
