

REGISTRATION

Free of charge but compulsory for organizational reasons.
As soon as possible, but no later than **January 15th, 2020**,
via email to: jennifer.ruch@pathology.unibe.ch

ABSTRACT SUBMISSION & POSTER PRINTING

Abstract submission deadline: **December 31st, 2019**
Poster printing service (CHF 35,-) deadline: January 20th, 2020
Send the abstract and pdf of the poster
via email to: jennifer.ruch@pathology.unibe.ch

VENUE

Institute of Pathology, University of Bern
Langhans Auditorium, Entrance 43A
Murtenstrasse 31, CH - 3008 Bern
<https://www.pathology.unibe.ch>

10 minutes walking distance from the trainstation Bern,
or Bus 11 or 101 to "Inselplatz"

CME POINTS

Total credit (in hours): 8

SPONSORS

HOTELS

Limited room contingents until 7.1.20
Booking code: "Lung Pathology Meeting // Uni Bern"

Hotel Bären

am Bundesplatz, Schauplatzgasse 4, 3011 Bern
Contact: +41 31 311 33 67; reception@baerenbern.ch
CHF 180/205; Double occupancy: CHF 225

Hotel Sorell Ador

Laupenstrasse 15, 3001 Bern
Contact: +41 31 388 01 11; ador@sorellhotels.com
CHF 135/155

Hotel Savoy

Neuengasse 26, 3011 Bern
Contact: +41 31 328 66 66; info@hotelsavoybern.ch
CHF 190/205; Double occupancy: CHF 225

Innovations in Lung Pathology

Joint meeting

Swiss Lung Pathology Group (SLPG) &

Working Group Thoracic Pathology of the German Society of Pathology (AG Thoraxpathologie, DGP)

February 7th-8th 2020
in Bern

Institute of Pathology
University of Bern

DEAR COLLEAGUES,

We cordially invite you to the joint "winter meeting" of the working group thoracic pathology of the German Society of Pathology (DGP) and the Swiss Lung Pathology Working Group (SLPG) in Bern, on February 7th-8th, 2020.

Under the umbrella term of "innovations in lung pathology", not only will we update immuno-oncological and molecular aspects of our rapidly developing field. We will also cover newly emerging technologies, e.g. digitalization and the promises of including artificial intelligence into diagnostics, novel DNA-based techniques as the methylation-classifier, being here to help us in challenging cases, and organoid cell culture as a promise for personalized drug screening. Step down to the cellular level and appreciate innovations of using cytological material for comprehensive analyses. Think out of the box and let yourself be introduced into the possibilities of lung-on-chip technology, which models the physical stress of a breathing lung, and innovative MALDI Imaging Mass Spectrometry for tissue-based research.

Get actively involved in the meeting and present your scientific work and exciting or mysterious cases on stage during the innovative "two-minutes" poster presentation.

Please join us also for the social part of the meeting! Increase your knowledge on medieval Bern and tighten the bonds between Swiss and German lung pathologists enjoying excellent Italian cuisine on Friday evening.

We are very much looking forwards to host you in Bern,

Yours sincerely,

PD Dr. Sabina Berezowska

Local Organizer

PD Dr. Spasenija Savic-Prince

President of the SLPG

Prof. Dr. Iver Petersen

Chairman of the AG Thoracic Pathology, DGP

PROGRAM

FRIDAY, FEBRUARY 7TH 2020

15:00 h Registration and Coffee

15:30 h Welcome
Sabina Berezowska, Bern

I. Diagnostics goes Digital

Chairs: Gian Kayser, Freiburg & Inti Zlobec, Bern

15:35 h Synoptic reporting in lung pathology
Ekkehard Hewer, Bern

15:50 h Current AI Applications in Thoracic Radiology
Lukas Ebner, Bern

16:10 h Computational Pathology: Towards Precision Medicine
Andrew Janowczyk, Lausanne

16:40 h *Coffee-Break and poster viewing*

II. Innovative methods in Lung research & diagnostics

Chairs: Fabian Mairinger, Essen & Alex Soltermann, Neuchâtel

17:00 h Lung-on-chip
Olivier Guenat, Bern

17:35 h MALDI Imaging Mass Spectrometry for tissue-based research in lung pathology
Axel Walch, München

18:10 – 22:00

Guided tour through Bern, a fascinating medieval new town with a baroque face with Armand Baeriswyl, historian and medieval archaeologist

https://de.wikipedia.org/wiki/Armand_Baeriswyl

Dinner at "Verdi"
Gerechtigkeitsgasse 7, 3011 Bern

SATURDAY, FEBRUARY 8TH 2020

8:45 h Members meeting of the
"AG Thoraxpathologie der DGP"

III. Innovations in thoracic neoplasms

Chairs: Korinna Jöhrens, Dresden & Lukas Bubendorf, Basel

9:00 h Methylation-classifier in lung cancer diagnostics
Philipp Jurmeister, Berlin

9:30 h Innovations in predicting response to ICI and targeted therapy
Reinhard Büttner, Köln

10:00 h Predictive immunocytochemistry in NSCLC
Spasenija Savic-Prince, Basel

10:30 h *Coffee-Break and poster viewing*

11:00 h Organoid cultures and drug screening
Marianna Kruthof-de Julio, Bern

IV. Poster presentations

Chairs: Iver Petersen, Gera & Sabina Berezowska, Bern

11:30 h „Two-minutes-session“ poster presentations

12:30 h *Lunch and poster viewing*

V. Innovations in non-neoplastic lung diseases

Chairs: Ludger Fink, Wetzlar & Igor Letovanec, Lausanne

13:30 h Innovations in ILD-treatment
Manuela Funke, Bern

13:50 h Comprehensive Approaches to Pulmonary Pathology
Danny Jonigk, Hannover

14:30 h Molecular Profiling of Vascular Remodeling in Chronic Pulmonary Disease
Paul Borchert, Hannover

14:45 h Farewell
