

The Icahn School of Medicine at Mount Sinai and the Mount Sinai Health System is seeking an **Academic Pathologist** on the clinician / educator track at the Assistant Professor or Associate Professor level. The ideal candidate will have strong general surgical pathology skills and subspecialty training or a demonstrable interest in thoracic pathology to support our expanding thoracic oncology, interstitial lung disease and lung transplant services. Additional experience in cardiac transplant pathology is also desirable. The position will support thoracic services at Mount Sinai Hospital and Mount Sinai Morningside. The candidate must hold an M.D. or D.O. degree, be board certified in AP and / or CP and have, or be eligible for, a medical license in the State of New York.

Responsibilities/Requirements:

- Conduct diagnostic evaluations in general and thoracic pathology with a commitment to excellence in diagnostic services.
- Commitment to education and teaching.
- Collaborate with interdisciplinary teams to contribute to patient care.

The Mount Sinai Health System is located in New York City, and encompasses the Icahn School of Medicine at Mount Sinai, the flagship Mount Sinai Hospital, and 6 additional hospitals in the New York Metropolitan Area. Mount Sinai Hospital, where this position is based, includes the Tisch Cancer Center, with expertise and research programs in all thoracic malignancies.

We offer a competitive compensation package, a collaborative work environment, and opportunities for professional development. Join our team and make a significant impact on patient care, education, and research. In order to be eligible for the Associate Professor position, candidates are required to have at least 5 years of faculty experience with a record of academic productivity.

To apply, please submit your CV, cover letter, and three professional references to
